

**3+5=8Mbps**

Get updates from Microsoft faster... combine the web download speeds of multiple links.

**NETWORK REDUNDANCY**

Prevent network outages as 99% availability still equates to 24 hours of downtime per year.

Accelibond includes unique "link bonding" which actually combines the speeds of multiple Internet links and leverages all available server resources.

**Accelibond™**  
MULTI-SESSION ACCELERATION

Combine multiple WAN connections to achieve faster download speeds.

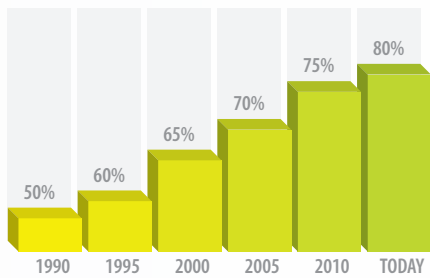

ISP A

ISP B

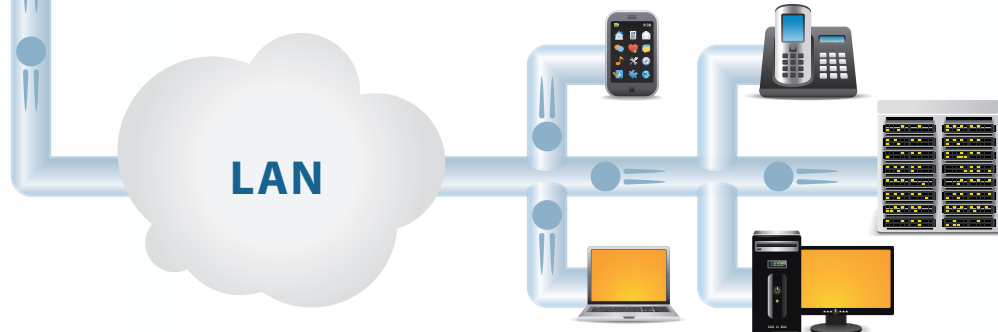

Accelibond utilizes XRoads' patented Multi-Session Acceleration technology to achieve "link bonding" without secondary devices.

**WEB TRAFFIC**

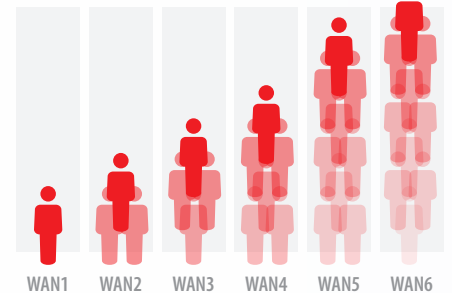

Over the years web usage has grown to over 80% of all Internet traffic.

LAN

**USERS SUPPORTED**

More ISP links equals more bandwidth for more users.
